CRITICOM MONITORING SERVICES AND CMS CAPITAL ADVANTAGE TO PARTICIPATE IN ELECTRONIC SECURITY EXPO THIS WEEK

LONGWOOD, Fla., June 22, 2009 – Criticom Monitoring Services (CMS) and its financial services group, CMS Capital Advantage, will host an exhibit at the Electronic Security Expo (ESX) June 24-25 at the Baltimore Convention Center. CMS President Tony Wilson and representatives from the company's business development and Capital Advantage groups will be at booth #1718 to meet with security professionals from around the country.

“While many in the industry may be familiar with our leading, national network of centers, extensive monitoring offerings and disaster recovery capabilities, we are pleased to make available our financial services group at this year’s show,” said Wilson. “Our goal this week is to showcase our full-service offerings, from our one-of-a-kind central station services to our dedicated teams and programs that assist with business development efforts. Whether they are just starting out or are expanding their established businesses, independent alarm dealers should know that they can come to CMS for the capital and administrative assistance, including loan programs and billing services, needed to successfully compete in today’s marketplace.”

CMS and Criticom International constitute the largest wholesale monitoring company in the United States, providing alarm monitoring for high-end installers and providers of intrusion, environmental and life safety security products and services to residential, commercial, medical and industrial customers. CMS has monitoring facilities in Cypress, Calif., Longwood, Fla., Manasquan, N.J., and St. Paul, Minn. The company also provides dealer integration, support and development services. Its well known brands of companies include King Central®, Monital®, NACCTM, and Securion®. Visit www.cmsn.com for more information.
